

Mini Mash Home Learning Tasks wb 22.6.20

Go to the 'Pins' section (top right) and select 'Seaside'. Look inside & find 'Slideshow'. In this section you will find how water is used at the seaside. Look at the pictures and talk with a family member about what is happening in each one. Have you been to the seaside? What did you do there?

Go to your tray and find the 'Boat jigsaw'. Can you put the pieces in the right place to make the picture?

Go to your tray and find the 'Seaside activities' chart. Look at the activities in the chart and ask some family members what they like to do or see at the seaside, then make a chart to show how many.

Go to the 'Reading and writing' section : select 'Alphabet paint projects' and follow the instructions: watch the video of the letter formation, then trace the letter with a coloured pen, then have a go at drawing the letter by yourself. Can you choose some of the letters from your name?

Have fun!
