

**Dear Parent/Guardian,**

We're delighted to share that National Energy Action (NEA) will be working with pupils at Queensmead Primary Academy between 29th September and 10th October as part of our exciting **Bright Minds: Warm Homes Project**.

NEA is the UK's leading fuel poverty charity, supporting families across England, Wales, and Northern Ireland to stay warm and safe at home. Through education, advice, and campaigning, we aim to make energy more affordable and accessible for everyone.

During our time at Queensmead, our Education Team will be delivering engaging assemblies, workshops, and lessons designed to help children explore:

- How to stay safe and warm at home
- Understand their energy use and its impact on the environment
- How to avoid wasting energy
- Careers in the energy industry
- Different types of energy, including renewable and non-renewable sources

We're also pleased to be attending Parents' Evening on Tuesday 14<sup>th</sup> and Wednesday 15<sup>th</sup> October, where our Energy Advisor and Community Worker will be available to speak with families. If you have concerns about your energy bills or would like advice on available support, please feel free to stop by our stall, where you might even win an air fryer.

To celebrate the children's learning, we'll be hosting a Showcase Event on Thursday 30<sup>th</sup> October, where parents will be invited to view the fantastic work created during the project. More details will follow soon.

Attached to this letter, you will find a leaflet about National Energy Action and the services they provide, including the advice hotline. For more information, please visit: [National Energy Action \(NEA\) - the UK's leading fuel poverty charity](#)

We're really looking forward to working with the students and hope this project sparks meaningful conversations at home too.
