**1)** The children in Class A carried out a survey to find their favourite fruits.
They presented the data in a bar chart.

a) Which fruit is the most popular?

b) How many children chose pears as their favourite?

c) What is the least popular fruit?

d) How many more children chose bananas than apples?

e) How many children chose apples and pears altogether?

**f)** Write a title for the bar chart.

_____

**2)** The table shows how many children in Class A attend each after-school club.

Club	Art	Football	Drama	Music
Total	11	12	8	9

Draw a bar chart to represent the information in this table.

Think carefully about the scale you will choose.

1) Emily and Ben have both drawn bar charts to show how many children go to after-school club each day.

Emily

Number of Children: 35, 30, 25, 20, 15, 10, 5

Day: Mon. Tue. Wed. Thu. Fri.

Ben

Number of Children: 40, 30, 20, 10

Day: Mon. Tue. Wed. Thu. Fri.

a) What is the same?

_____

_____

b) What is different?

_____

_____

c) Which bar chart do you think represents the data best? Why?

_____

_____

1) The bar chart shows what seasons the children from Class A were born in.

a) 2 children have birthdays in the spring. True or false? Explain your reasons.

_____

_____

b) Does the bar chart tell us how many birthdays are in July? Convince me.

_____

_____

c) What's the difference between the number of children born in autumn and winter?

d) How many children are in Class A altogether?

2) Draw a bar chart to show who was born in what season in your class.

Use what you know about bar charts to help you.
