

Queensmead Quests

Challenges for Julia Donaldson and Sue Hendra classes to complete during week commencing 27th April 2020

Whatever Next!

Watch Ms Frost read the story Whatever Next on FlipGrid.

Tell a grown about your favourite part of the story. Who were the characters? What happened and how did the story end?

Don't forget to vote for which story you would like your teacher to read next!

Paint or draw of picture of the moon and the aliens that might live there.

What are you the aliens saying? Write their conversation in speech bubbles.

Baby Bear travelled in a rocket but can you make a boat for your bears/toys to travel in?

The boat MUST float and your passengers should not get wet.

What else can you find that floats?

Gather all the objects together and test them during your bath time.

Make sure you ask your grown-up first!

Although the moon is cold, the sun is very, very hot. Can you find 5 things that will melt if you leave them out in the sunshine?

Estimate how long it will take each item to melt. Will the object's change shape?

Draw a picture of how the objects looked before and after time in the sunshine.

Can you organise a picnic like Baby Bear had on the moon? First, write a list of everything you need to do and make. Do not forget to send invites so your family know when to come.

Take a photo of your picnic and send Thank-you cards to those who came!
